Commissioner, Federal Communications Commission

Dear Deborah Taylor Tate:

America's broadband Internet goals are going unmet and America's international position is rapidly falling. Many American families, schools and libraries cannot afford broadband and most of rural America cannot even get access to the broadband Internet.

Once online, many families are concerned about the growing threat to children of easily accessible indecent and pornographic material. And public safety organizations often can't work together due to incompatible data networks.

It doesn't have to be this way. I urge you to support the M2Z Networks ([www.m2znetworks.com](http://www.m2znetworks.com)) plan to put America back on the right track by providing 95% of America with access to a free, fast, and family-friendly wireless broadband Internet. It will make us safer. We will become more competitive. It will create equal opportunity. It will improve our great country.

Please support M2Z today.

Sincerely,

Lisa Marlin
